

Questions and Responses				
Question #	Document Reference	Section Reference	Discussion/Question	FMCSA Response
t	RFQ	Section 1.1 Order Type	<b>8(a) Pool Eligibility Clarification:</b> The solicitation states sources with GSA MAS 8(a) Pool-Competitive category shall respond. Can you confirm that companies with 8(a) certification through SBA are eligible to compete under this set-aside, or is this limited only to companies specifically enrolled in GSA's 8(a) Pool program?	The final version of the RFQ has been updated to allow for sources only in the GSA 8(a) -Competitive pool may respond.
2	SOO	Section C.1.2, Task 2	<b>AWS Architecture Requirements:</b> The SOO mentions preference towards "Cloud-Native solutions such as Azure or AWS." Given that the technology stack is explicitly AWS-native (Redshift, Glue, etc.), can you clarify if Azure integration is actually required, or was this an oversight in the documentation?	Azure integration not required at this time
3	SOO	Section C.1.5 Labor Objective	<b>Team Size and Composition:</b> The SOO mentions "one (1) data management team working in an agile manner" but lists 5 specific labor categories. Can you provide guidance on the expected team size (total FTEs) and whether additional labor categories beyond the 5 listed would be acceptable?	FMCSA anticipates a combination of the labor categories stated in C.1.5 of the SOO. The Contractor shall propose a team based on their technical solution.
4	RFQ	Section 7.1 Key Personnel	<b>Key Personnel Availability:</b> For Key Personnel resumes, should we provide resumes for individuals currently employed by our company, or may we include qualified candidates we intend to hire pending contract award? What documentation is required for commitment letters?	See Section 11.5 Volume II, Factor 4 "The Quoter shall provide a resume of their proposed key personnel." Also stated in this section, "If the proposed key personnel is/are not a current employee of the Contractor, the Contractor shall include a signed commitment letter from the employee that reflects their intention and willingness to perform in the event the Contractor is awarded this TO. Also, if the Quoter learns before an award is made that a proposed Key Person is no longer available, the offeror must inform the Contracting Officer of the Key Person's unavailability as soon as that information becomes known to the Contractor."
5	SOO	Section C.1.6 Place of Performance	<b>Telework Policy:</b> The SOO mentions contractor may be permitted to telework "as approved by the Government." Can you provide more specific guidance on the expected on-site/remote work ratio and any security requirements for remote work environments?	The Contractor is allowed to work remotely unless specified.
6	Attachment 3	Cybersecurity Requirements	<b>FedRAMP Compliance:</b> Given the extensive FedRAMP requirements in Attachment 3, will contractors need to obtain their own FedRAMP authorization, or will this system operate under DOT's existing FedRAMP boundary? What is the expected timeline for any required security assessments?	It will operate under DOT's existing FEDRAMP boundary.
7	SOO	Background Section	<b>Legacy System Documentation:</b> The SOO mentions "significant amount of documentation produced during previous efforts" will be available after award. Can you provide a high-level inventory of available documentation to assist in proposal development and risk assessment?	This information is not available.
8	RFQ	Section 1.3 Schedule of Services	<b>Option Period Exercise:</b> What factors will FMCSA consider when deciding whether to exercise option periods? Are there specific performance metrics or milestones that must be achieved?	The Government will reserve the right to exercise any option period. The Contractor must have a satisfactory Contractor performance prior to exercising the option.
9	SOO	Section C.1.2, Task 4	<b>Data Migration Scope:</b> The SOO mentions "data sources not covered by data migration: registration." Can you clarify which data sources ARE covered by existing migration efforts versus what this contract will address?	This information is not available.
10	RFQ	Section 12.1 Method of Award	<b>Evaluation Weights:</b> While the solicitation states Factors 1, 2, and 3 are "of equal importance," can you provide more specific guidance on how these technical factors will be weighed against Factor 4 (Price) in the overall award decision?	See Section 12.1. Factors 1, 2 and 3 (non-priced factors) are of equal importance, when combined are more important than price. After evaluation of all non-price factors, the Technical Evaluator will assign a single confidence rating for each quote. Non-price factors are more important than price. Note: The evaluation factors have been updated int the final RFQ to allow a Multi-Step Down Select Process with Phase I and Phase II. Please review sections 11 and 12 of the final RFQ (693JJ426F000006).

11	SOO	Section C.1.2 O&M	<b>Current System Performance:</b> Can you provide information about the current system's performance metrics, user base, and transaction volumes to help size our technical approach appropriately?	This information is not available.
12	Attachment 3	Security Requirements	<b>Continuous Monitoring Tools:</b> The security requirements specify numerous scanning and monitoring activities. Will the Government provide access to existing security tools, or must the contractor provide their own NIST/FISMA compliant toolset?	Yes. No need to provide their own security tools.
13	RFQ	Attachment 1	<b>Pricing Structure:</b> Will Attachment 1 (Price Quote Schedule) be provided with the final solicitation? The current template referenced is not included in this draft solicitation package.	Attachment 1 - Price Quote Schedule will be provided in the final solicitation.
14	SOO	Section C.1.1 General Objectives	<b>Development Environment Access:</b> When will contractors receive access to DOT/FMCSA development environments and what is the typical timeline for security processing and account provisioning?	The timeline varies based on each individual and is on a case by case basis.
15	RFQ	Section 11.3.1 Quote Requirements	<b>Page Limitations:</b> The 10-page limit for Technical Quote seems restrictive given the comprehensive requirements. Would FMCSA consider increasing this limit, or can you clarify what specific content should be prioritized within this constraint?	See 11.3.1 Page Limitations will not be changed. This section clearly explains what is excluded from the page limitation.
16	RFQ	Section 1.1 Order Type	<b>DevSecOps Platform Integration:</b> Given the comprehensive security requirements (NIST 800-53, FedRAMP) and AWS-native architecture, would FMCSA view favorably the integration of a FedRAMP-authorized DevSecOps platform (such as GitLab Ultimate Federal) to enhance CI/CD pipeline security, automated compliance monitoring, and vulnerability management for the TruData platform? Alternatively, does FMCSA favor self-managed systems that can be configured for FedRAMP compliance within AWS GovCloud?	This will be considered.
17	SOO	Section C.1.2, Task 2	<b>Data Platform Scalability:</b> The SOO mentions "growing set of datamarts currently approaching one hundred (100)." Can FMCSA provide guidance on the expected growth trajectory for datamarts over the 4-year performance period, and any specific performance benchmarks for data processing volumes or user concurrency that the modernized platform must support? What is the approximate number of users that the system is expected to support?	This information is not available at this time.
18	Attachment 3	Cybersecurity Requirements	<b>Security Tool Integration:</b> Given the extensive vulnerability scanning requirements (weekly OS, web app, and database scanning), will FMCSA accept integrated security scanning capabilities (SAST, DAST, dependency scanning, IaC scanning, SBOM, etc.) within the contractor's DevSecOps pipeline, or must all scanning be performed using Government-specified tools? What is the process for tool approval if contractor tools meet or exceed specified requirements?	Scanning will be performed using the agencies existing security tools.
19	SOO	Section C.1.5 Labor Objectives	<b>Agile Team Composition:</b> The SOO specifies "one (1) data management team working in an agile manner" with 5 labor categories. For optimal agile delivery, would FMCSA consider additional specialized roles such as DevOps Engineer or Cloud Architect if they enhance the technical solution without increasing overall cost?	FMCSA anticipates a combination of the labor categories stated in C.1.5 of the SOO. The Contractor shall propose a team based on their technical solution.

20	RFQ	Section 12.1 Method of Award	<b>Value Engineering Opportunities:</b> Since this is a FFP contract, will FMCSA evaluate proposals that include value-added services or cost optimization strategies (such as automated infrastructure provisioning, enhanced monitoring capabilities, or accelerated data migration approaches) that could reduce total cost of ownership while maintaining or exceeding SOO requirements?	No. Quotes will be evaluated based on the information stated in Section 12.
21	RFQ	General	Although the cover page references this as a Draft RFQ, the document also specifies official submission due dates. Could you please confirm whether this is the Final RFQ or if a revised version will be issued?	The Draft RFQ1782756 is cancelled. The final version of the RFQ (693JJ426Q000006) is uploaded for Quotes. All Questions received regarding the Draft RFQ are included in this Questions and Response (Q&R).
22	RFQ	General	Is this a new contract or a recompete? If it is a recompete, could you please confirm who the incumbent contractor is, the current contract number, and whether the incumbent is eligible to recompete?	This is not considered a recompete of an existing contract. However, Reveal Global Consulting LLC, has been performing this service under contract number 693JJ423F00061N.
23	RFQ	5.1 Period of Performance	Will FMCSA allow flexibility in transition timelines if key staff require security clearance or onboarding delays occur?	The Government expects to adhere to the task order Period of Performance periods.
24	RFQ	7.1 Key Personnel	Can resumes for proposed key personnel be updated after submission if availability changes before award?	Yes this will be allowed.
25	RFQ	6.1 Contracting Officer's Representative	Can the COR provide minor technical direction without a formal modification, or must all scope changes be approved by the CO?	Any changes to the contract will require a modification. The COR will provide technical direction.
26	SOO	C.1.1 General Objectives	The SOO specifies AWS-native services. Can equivalent cloud-native technologies be proposed, or must it remain AWS-only?	AWS only.
27	SOO	C.1.2 O&M – Legacy Data Migration	What is the expected timeline for sunseting MCMIS and full transition to TruData?	Currently in flight.
28	SOO	C.1.2 O&M – Data Marts	Is there a prioritized list of ~100 data marts for modernization, or should the contractor propose prioritization criteria?	Yes. There is a prioritized list.
29	SOO	C.1.2 O&M – Integration	How will FMCSA facilitate coordination with external AISs (SAFER, SAFETYNET, PRISM, ITD) for data exchange?	This is already in place.
30	SOO	C.1.2 O&M – Agile Approach	Will FMCSA provide access to its Jira backlog, or is the contractor expected to establish and maintain a separate Agile tool?	Yes to Jira backlog.
31	SOO	C.1.2 O&M – Support Services	Will Tier I/II helpdesk support be handled by FMCSA, with contractor responsible for Tier III, or full end-to-end?	Yes
32	SOO	C.1.2 O&M – Platform Support	What performance SLAs (uptime, response, defect turnaround) should be proposed, or will FMCSA provide benchmarks?	Should be proposed.
33	RFQ	7.5 Incident Response	Since incidents must be reported within 1 hour, will FMCSA provide a 24/7 POC for after-hours reporting?	Yes
34	RFQ / SOO	7.7 Configuration Compliance / C.1.3 Security Objectives	How often will FMCSA conduct independent audits or penetration testing of contractor systems?	As scheduled.
35	SOO	C.1.3 Security Objectives	Will FMCSA require FedRAMP High controls across all AWS services, or only for those handling PII/mission-critical data?	No this is not required.
36	SOO	C.1.4 Management Objectives	Does FMCSA provide standard templates (SSP, POAM, test reports), or should contractor propose its own?	FMCSA provided.
37	SOO	C.1.6 Administrative Objectives – Transition Out	The SOO specifies a 4–8 week knowledge transfer. Will this period be fully billable under the base POP?	Yes.

38	Attachment 2 TruData Modernization IT Support SOO_Draft and Attachment 1 Price Quote Schedule Trudata	C.1.5 LABOR OBJECTIVES and Detailed FFP Breakdown	Att 2, on Page 10, C.1.5 LABOR OBJECTIVES” listed, six (5) labor position titles (Project Manager, Business Analyst, Data Architect, Database Developer, Quality Assurance Analyst)” But, Att1 Excel Sheet tabulated all LOE for this TO. “Data Architect” category is missing in Excel Sheet. Can the Government clarify?	The labor categories in the detailed breakdown page on Attachment 1 are for estimation purposes. See the following statement *THE ALLOCATED HOURS AND LABOR CATEGORIES ARE FOR ESTIMATING PURPOSES ONLY. THE CONTRACTOR MAY ADJUST TO CONFORM WITH THE TECHNICAL APPROACH AND THE PWS SUBMITTED IN RESPONSE TO THIS RFQ. Section C.1.5 of the SOO States "the Contractor shall propose a team based on their technical solution.
39		General	Is travel required for this opportunity?	No. Travel is not required.
40		General	Can we request the government for the tentative award date?	The award timeframe is to be determined (TBD). The Government estimates the end of December 2025.
41	Attachment 2 TruData Modernization IT Support SOO_Draft and Attachment 1 Price Quote Schedule Trudata	Knowledge Transfer	The government has provided the Transition-Out period as 4 to 8 weeks. Could you please let us know the transition-in period as well?	4 weeks.
42	Attachment 2 - SOO Page 7, Task 4	C.1.2 Operations and Maintenance (O&M)	Can the government provide an estimated number of data sources & their sizes?	No specificity can be provided.
43	Attachment 2 - SOO Page 9	C.1.5 Labor Objectives	Based on the labor categories, can the government clarify if no security personnel will be hired, and if will the contractor's security scope will only include assistance in addressing POAMs from the client security side?	No security personnel. Only assistance is required.
44	Attachment 2 - SOO	General	Does the budget include monthly or annual burn rates of AWS infrastructure or does it only cover the team personnel cost? <b>Feedback:</b> The determined AWS architecture will have immense implication on the total cost of tools used, storage types/volume/backup/DR requests, EC2 instances if any servers are needed, various types of databases to support the platform being built.	Only Team personnel cost is included.
45	Attachment 2 - SOO Pg. 6, Task 2 (B)	C.1.2 Operations and Maintenance (O&M)	Can the government confirm it is designating AWS as the chosen cloud platform? Are there Azure instances/elements? Is the architecture required to be transferrable to other clouds such as Azure or Google, or that is not part of scope?	AWS is the platform used.
46	693JJ425Q000030 RFQ TruData- Draft 9 15 25	General	Is the TruData platform a COTS product or at all related to truData Solutions?	Not a COTS product
47	1. 693JJ425Q000030 RFQ TruData- Draft 9 15 25 - Copy.17579630104 88	Factor 3: Technical Quote – Key Personnel Resumes, Page# 21	Are the proposed Key Personnel required to be U.S. citizens?	Contract personnel are required to comply with the security and access requirements set forth in FAR 52.204-2, Security Requirements, and 1252.204-70, Contractor Personnel Security and Agency Access. These clauses outline the conditions for obtaining the necessary clearances, background investigations, and agency access credentials needed to perform work under the contract

48	1. 693JJ425Q000030 RFQ TruData- Draft 9 15 25 - Copy.17579630104 88	Factor 3: Technical Quote – Key Personnel Resumes, Page# 21	Could the government please confirm if the requested key personnel positions are 3	The minimum key personnel are listed in section 7.1 of the RFQ.
49	1. 693JJ425Q000030 RFQ TruData- Draft 9 15 25 - Copy.17579630104 88	11.3.1 Quote Submission Requirements, Page# 17	Could you please confirm if there are any specific page limits, font size, or style requirements for the text, tables and graphics in the proposal?	Refer to section 11.5 of the RFQ.
50	1. 693JJ425Q000030 RFQ TruData- Draft 9 15 25 - Copy.17579630104 88	Factor 3: Technical Quote – Key Personnel Resumes, Page# 21	Can the Government confirm whether a Facility Clearance Level (FCL) is required for this contract? If so, what is the minimum clearance level?	Low Risk - Public Trust
51	1. 693JJ425Q000030 RFQ TruData- Draft 9 15 25 - Copy.17579630104 88	Factor 3: Technical Quote – Key Personnel Resumes, Page# 21	Could the Government please confirm if there is a minimum personnel clearance requirement? If yes, what is the minimum clearance level?	Low Risk - Public Trust
52	1. 693JJ425Q000030 RFQ TruData- Draft 9 15 25 - Copy.17579630104 88	General	Would the Government consider extending the submission deadline for this opportunity, given the scope and the time required for a thorough response?	Please adhere to the date close date and time in the final solicitation.
53	3. Attachment 2 TruData Modernization IT Support SOO_Draft - Copy.17579630108 56	C.1.2, O&M, Task 3 (Support Services)	Please confirm whether FMCSA will provide defined Service Level Objectives (SLOs) for corrective, adaptive, perfective, and preventative maintenance. If FMCSA does not intend to provide numeric SLOs, please confirm that the contractor should propose SLO thresholds and associated acceptance criteria in the QASP and indicate the Government review/approval timeline for those proposed SLOs.	This shall be proposed by the Contractor.
54	3. Attachment 2 TruData Modernization IT Support SOO_Draft - Copy.17579630108 56	C.1.2, O&M, Task 4 (Platform Support)	con	Yes. Government furnished.

55	3. Attachment 2 TruData Modernization IT Support SOO_Draft - Copy.17579630108 56	C.1.4, Management Objectives	The SOO requests Agile metrics and meaningful reporting to provide FMCSA visibility into performance but does not specify reporting formats. Please confirm whether FMCSA requires use of prescribed reporting formats, dashboards, or templates (and if so, please provide examples or references). Alternatively, may offerors propose industry-standard reporting dashboards and templates, with the understanding that final artifacts will be subject to Government review and approval?	The Contractor may propose.
56	3. Attachment 2 TruData Modernization IT Support SOO_Draft - Copy.17579630108 56	C.1.6, Knowledge Transfer	Could the Government please specify whether transition-out deliverables (e.g., runbooks, data dictionaries, architecture diagrams) must follow FMCSA-provided templates, or if contractor-proposed formats are acceptable?	Contractor proposed is acceptable formats are acceptable
57	3. Attachment 2 TruData Modernization IT Support SOO_Draft - Copy.17579630108 56	Accessibility & Section 508 Compliance	Could the Government please confirm whether accessibility conformance testing must be performed with Government-specified tools, or if industry-standard Section 508/WCAG testing tools are acceptable, subject to Government validation?	Government specific tools.
58	4. Attachment 3 FMCSA IT Security and Privacy Language Clauses - Copy.17579630107 68	Section 1.2, System Categorization	Attachment 3 identifies the current FIPS 199 categorization as MODERATE. Please confirm whether FMCSA expects this categorization to remain unchanged for the contract performance period, and if not, describe the conditions or triggers that could result in re-categorization to High and the associated notification/approval process.	No changes expected.
59	4. Attachment 3 FMCSA IT Security and Privacy Language Clauses - Copy.17579630107 68	Section 2.3, Continuous Monitoring	Attachment 3 requires continuous monitoring and reporting to provide FMCSA with real-time visibility, but it does not specify integration requirements. Please confirm whether the Government expects contractor monitoring outputs to be integrated into FMCSA's existing dashboards and SIEM solutions. If so, please provide the technical interfaces, data formats, and authentication methods to be used. Alternatively, if contractor-hosted dashboards and reports are acceptable, please confirm acceptance criteria and any Government requirements for data access or retention.	No. The Government does not expect contractor monitoring outputs to be integrated into FMCSA's existing dashboards.
60	4. Attachment 3 FMCSA IT Security and Privacy Language Clauses - Copy.17579630107 68	Section 3.3, Incident Reporting	Could the Government please clarify whether the contractor will have access to FMCSA's incident response and ticketing systems, or if the contractor is expected to provide its own tools for tracking, documenting, and reporting incidents?	Access will be granted to the ticketing system

61	4. Attachment 3 FMCSA IT Security and Privacy Language Clauses - Copy.17579630107 68	Section 4.2, Cloud FedRAMP Requirements	Could the Government please clarify whether existing FedRAMP authorizations for contractor cloud environments can be leveraged, or if the contractor must undergo a new FedRAMP assessment specifically for this FMCSA system?	The TruData system is currently operating under an ATO. Contractors will support with re-authorization. (I e. providing information to develop/update security and privacy documents, reviewing and updating system documentation for accuracy, providing system demos to assessors, providing artifacts for security control testing, etc.).
62	Attachment 2 – SOO	C.1.2 Operations & Maintenance	Please confirm the estimated data volumes (storage in TB for S3/Redshift) and anticipated growth across the 4-year POP.	No specificity can be provided
63	Attachment 2 – SOO	C.1.2 Operations & Maintenance	What are the expected compute/usage levels (e.g., number of Redshift queries, Glue pipelines, Kinesis streams, concurrent users)?	No specificity can be provided
64	Attachment 2 – SOO	C.1.2 Operations & Maintenance	Are there any specific SLAs for performance and availability (e.g., uptime %, latency targets, data refresh frequency)?	No
65	Attachment 3 – Security Clauses	Section (d) IT Security Requirements /	For disaster recovery, please provide the required Recovery Time Objective (RTO) and Recovery Point Objective (RPO).	Per the TruData Business Impact Analysis in CSAM, the Recovery Time Objective (RTO) for the system is 48 hours. The Recovery Point Objective is 12 hours.
66	Attachment 3 – Security Clauses	Section (e) Security Assessment and Authorization	Will FMCSA provide access to its Cyber Security Assessment Management (CSAM) tool, or should the contractor procure tooling to manage POA&M and findings?	The contractors will not have access to CSAM and are not required to procure tooling to manage POA&M and findings.
67	Attachment 3 – Security Clauses	Section (g) Continuous Monitoring	For vulnerability scanning, should the contractor use FMCSA-approved tools or propose its own scanning/monitoring suite?	FMCSA-approved tools will be utilized for vulnerability scanning.
68	Attachment 3 – Security Clauses	Section (e) Security Assessment and Authorization Activities	Please clarify if the independent penetration testing will be Government-furnished (via 3PAO) or contractor-provided.	Penetration testing will be government-furnished.
69	Attachment 2 – SOO	C.1.2 Operations & Maintenance	For O&M services, what are the expected support hours (e.g., 8x5 ET, 24x7)?	Core business hours are expected.
70	Attachment 2 – SOO	C.1.2 Support Services	Will the Government provide service desk/ticketing tools (e.g., Jira, ServiceNow), or should the contractor furnish them?	Government Furnished
71	Attachment 2 – SOO	C.1.2 O&M Task 1	Does FMCSA require the contractor to maintain parallel operations with MCMIS indefinitely, or is there a sunset timeline for legacy systems?	There is a defined roadmap
72	Attachment 2 – SOO	C.1.4 Management Objectives	Should contractors plan for user training and knowledge transfer to Government staff as part of deliverables?	No
73	Attachment 2 – SOO	Deliverables Section	The SOO lists multiple deliverables (SSP, SAR, POA&M, Contingency Plan). Can FMCSA provide a list of deliverables by CLIN for Attachment 1 Price Schedule alignment?	The expected deliverables are included in the SOO on Page 14.
74	Attachment 2 – SOO	C.1.4 Management Objectives	Please confirm whether monthly program management reports have a required format/template, or if contractors may propose their own.	Contractor may propose their own
75	Attachment 2 – SOO	C.1.2 Platform Support	For dashboards and reports, are there preferred visualization tools (e.g., AWS QuickSight, Tableau, Power BI), or should contractors recommend?	Contractor may propose
76	Attachment 2 – SOO	C.1.2 Platform Support	Will the COR provide AWS service accounts (billing consolidated under FMCSA), or should the contractor propose provisioning through its own AWS accounts?	Government provided
77	RFQ Main Document	Section 7.1 Key Personnel	For Key Personnel, the RFQ specifies a Project Manager, Database Developer, and QA Analyst. Please confirm whether we are required to provide two resumes (for 2 FTEs) and whether signed commitment letters are required for all proposed Key Personnel.	Resumes are required for any Key Personnel Proposed. Refer to Factor 4, Key Personnel Resumes regarding commitment letters.

78	Attachment 2 – SOO	C.1.2 Operations & Maintenance	Please confirm the estimated data volumes (storage in TB for S3/Redshift) and anticipated growth across the 4-year POP.	No specificity can be provided
79	Attachment 2 – SOO	C.1.2 Operations & Maintenance	What are the expected compute/usage levels (e.g., number of Redshift queries, Glue pipelines, Kinesis streams, concurrent users)?	No specificity can be provided
80	Attachment 2 – SOO / Attachment 3 Security	C.1.3 Security Objectives / (c) Security Categorization	Please confirm whether the solution must be hosted in AWS GovCloud (US) or if commercial AWS regions are acceptable.	AWS Cloud
81	Attachment 3 – Security Clauses	(d) IT Security Requirements –	For disaster recovery, please provide the required Recovery Time Objective (RTO) and Recovery Point Objective (RPO).	The Recovery Time Objective (RTO) for the system is 48 hours. The Recovery Point Objective is 12 hours.
83	RFQ Draft	Award Type	Is FMCSA open to multiple awards under this requirement, or will this be	This will be a single awarded Task Order.
84	SOO Draft	Scope of Work	For the ~100 datamarts referenced, can FMCSA provide insight into the expected growth rate (e.g., how many new datamarts per year) and whether contractors should plan for net-new development or primarily O&M?	No specificity can be provided
85	SOO Draft	Technical Approach	Will FMCSA provide access to existing Well-Architected Review documentation for TruData, or should contractors assume a fresh baseline review?	A fresh baseline review is expected.
86	SOO Draft	Operations	How much parallel operation with MCMIS is expected during the base year—continuous support, or milestone-driven cutover phases?	Milestone driven until sunset
87	Security Clauses	FedRAMP/ATO	Can FMCSA clarify whether 3PAO assessment costs for FedRAMP Moderate ATO renewal will be borne by the Government or the contractor?	Costs are currently borne by FMCSA.
88	Security Clauses	Vulnerability Scans	For the required weekly vulnerability scans, will FMCSA provide scanning tools/licenses, or should the contractor include those in pricing?	This does not apply to the requirement.
89	Security Clauses	DOT/FMSCA Controls	Are there any additional DOT or FMCSA-specific security controls (beyond NIST SP 800-53r4 Moderate) that contractors should anticipate?	NIST SP 800-53 revision 5 Moderate
90	RFQ Draft	Deliverables	The RFQ requires submission of a QASP as part of the proposal. Can FMCSA confirm whether the awarded contractor will also be required to update/maintain the QASP post-award (e.g., quarterly reviews)?	Yes. Per the final RFQ (693JJ426Q000006), a draft QASP shall be submitted in Phase II of the solicitation. The awarded Contractor will be required to provide a final QASP post award.
91	SOO Draft	Reporting	For reporting, should contractors assume integration with DOT-wide dashboards/tools (e.g., CyberScope, MAX.gov) or only FMCSA-specific systems?	This information is not available.
92	RFQ Main	Transition/General	Based on the information provided, we assume that some migration work has already been completed. Could the Government elaborate on the changes in scope under this solicitation compared to the initial modernization and migration scope?	This information cannot be provided at this time.
93	RFQ Main	Section 11.3.1	Is there a specific page limit for the Quality Assurance Surveillance Plan (QASP), and can the Government clarify the scope of content that must be addressed in the QASP with respect to this SOO?	See section 11.3.1 regarding Page limitations and see Factor 2, QASP.

94	RFQ Main	Section 11.3.1	Within the 10-page limit for the Technical Quote, does the Government have any guidance or preferred allocation of pages between the Technical Approach and the Staffing and Management Plan?	See section 11.5 regarding Page limitations.
95	SOO Attachment 2	Background	Please specify which systems, besides MCMIS, are expected to be retired following data migration, and whether data ingestion from these systems will be conducted as a one-time activity or on a recurring basis. Additionally, what percentage of data has been migrated to the TruData platform since 2021?	No specificity can be provided
96	SOO Attachment 2	Background	Could the Government describe any specific challenges encountered to date in the modernization and data migration process that offerors should be aware of?	No specificity can be provided
97	SOO Attachment 2	Background	Can the Government provide information on the total data volume to be migrated and managed, as well as the approximate size and scope of the referenced data marts? Are there any particular data quality requirements or challenges the contractor should anticipate?	Work is being tracked against a roadmap
98	SOO Attachment 2	C.1.2 O&M / Migration	What specific MCMIS data elements must be migrated into TruData before MCMIS is sunset? Will FMCSA provide a prioritized data migration roadmap? How much the legacy system is documented to facilitate migration related activities?	No specificity can be provided
99	SOO Attachment 2	C.1.2 Platform Support	How many external system will be ingesting Data into TruData continuously? Can you please provide brief detail about these	No specificity can be provided
100	SOO Attachment 2	C.1.2 Platform Support	The SOO references 'approaching one hundred (100) data marts.' Can FMCSA clarify which are mission-critical and whether all must be supported in parallel?	All must be supported
101	SOO Attachment 2	C.1.2 Platform Support	What is the tech stack being used for Reports and Visualization at present? Is there any plan to change and updated these?	Includes Tableau and Power BI. Currently, there is no plan to change or update.
102	SOO Attachment 2	C.1.3 Security Objectives	Will the contractor be expected to author and maintain the entire security ATO package (SSP, SAR, RAR, POAM), or just update FMCSA-provided templates?	The contractor is not expected to author and maintain the entire security ATO package. Contractors will assist in updating FMCSA-provided templates
103	SOO Attachment 2	C.1.2 (Operations & Maintenance / Cloud Architecture & Support)	Given the extensive AWS-native technology stack specified in the SOO (e.g., Redshift, Glue, S3, DynamoDB, Kinesis), can the Government clarify whether AWS-proficient Database Developers at the Senior and Intermediate levels are expected to cover all related AWS tasks, including security and upgrade requirements, or if the Government anticipates that the contractor will also provide dedicated AWS Cloud Engineer/Administrator resources to address cloud architecture, compliance, and Well-Architected framework activities?	The contractor is expected to propose a staffing solution to meet the needs of this requirement.
104	RFQ 693JJ425Q000030; Attachment 2 – SOO	5.2 Place of Performance; C.1.6 Administrative Objectives – Place of Performance	What is the expected place of performance and any required on-site cadence?	See Section 5.2 of the RFQ.
105	Attachment 2 – SOO	C.1.6 Administrative Objectives – Emergency	What qualifies as an “emergency situation”? Will that require an on-site presence, and how will notice be given?	These instances will be determined by the agency. Onsite presence is to be determined at that time.

106	Attachment 2 – SOO	C.1.2 O&M; C.1.2 Task 4 Platform Support; C.1.3 Security Objectives	For data movement and transformation between TruData and its source and consumer systems, does the Government mandate a specific implementation pattern, or may offerors propose the approach that best meets performance, security, auditability, and cost objectives identified in the SOO, provided all deliverables and SLAs are met?	A continued implementation pattern with periodic reviews is expected.
107	Document reference: Attachment 2 – SOO; RFQ 693JJ425Q000030	C.1.6 Administrative Objectives – Hours of Operation & Emergency Situations ; Deliverables – Problem Notification Reports	Does the Government anticipate any surge support outside core hours (evenings/weekends/holidays)? If so, what typical triggers (e.g., emergency or mission-essential conditions, security incidents, major releases) and what response timelines (e.g., verbal same-day, written within 24 hours, one-hour incident reporting) apply?	No surge support is anticipated.
109	Attachment 2 – SOO	Background (established AWS VPC; ongoing effort since 2021 to build an authoritative data platform) and C.1.2 O&M (maintain the current data platform).	Of the work described in the SOO, which portions are net-new versus already being performed today under the current incumbent/support arrangement?	Currently being performed
110	Attachment 2 – SOO	C.1.5 Labor Objectives (one agile data management team; LCATs illustrative).	Should the offeror align to an existing Government/contractor team structure, or propose its own single agile team structure in line with the SOO?	In line with the SOO.
111	Attachment 2 – SOO	C.1.1 General Objectives (“within DOT/FMCSA	Will the Government provide required platform/service licenses, or should the contractor plan to procure any licenses?	Yes.
112	Attachment 2 – SOO	Deliverables overview (Jira/Confluence called out as official repositories).	What work-tracking/ticketing systems will be authoritative during performance (e.g., Jira/Confluence noted in the SOO)? Are there any other ITSM tools (e.g., ServiceNow) in scope?	ServiceNow
113	RFQ 693JJ425Q000030; Attachment 1 – Price Quote Schedule; Attachment 2 – SOO	FQ §11.3.1 Quote Submission Requirements (Part 2: complete Attachment 1; price belongs in the Price Quote) ; RFQ Factor 4 – Price (consistency with technical approach) ; SOO C.1.5 Labor Objectives (single agile team; roles anticipated—not a fixed headcount)	To ensure price realism and compliance, can the Government confirm whether the labor categories and quantities in Attachment 1 – Price Quote Schedule are prescriptive or serve as a template? Specifically, may offerors adjust the number/mix of FTEs (increase or decrease) to align with the proposed technical approach, and should any pricing assumptions be captured only within Attachment 1 or may a brief pricing narrative accompany Part 2 – Price?	<b>Attachment 1 - Detailed FFP Breakdown states *THE ALLOCATED HOURS AND LABOR CATEGORIES ARE FOR ESTIMATING PURPOSES ONLY. THE CONTRACTOR MAY ADJUST TO CONFORM WITH THE TECHNICAL APPROACH AND THE PWS SUBMITTED IN RESPONSE TO THIS RFQ.</b>
114	Attachment 2 – SOO; RFQ + Attachment 1	SOO C.1.5 (anticipated LCATs list is illustrative) and RFQ List of Attachments / Price Quote instructions	Are offerors restricted to the labor categories provided in the Price Quote materials, or may we propose additional labor categories if justified by the technical approach?	See the response above.
115	RFQ 693JJ425Q000030	11.3.1 Quote Submission Requirements (Part 2: include completed Attachment 1; all price	Should all pricing assumptions be captured solely within Attachment 1 (Price Quote Schedule), or may a separate pricing narrative be submitted?	Assumptions should be included in Attachment 1.

116	RFQ 693JJ425Q000030	5.2 Place of Performance ("The Government will also provide laptop images for use on site or remote.").	The RFQ notes the Government will provide "laptop images" for on-site or remote use, will end-user laptops themselves be Government-furnished equipment, or should the contractor supply hardware for imaging?	Government Furnished Equipment (GFE).
117	RFQ 693JJ425Q000030	Factor 3 – Key Personnel Resumes (KP roles identified; evaluation basis described) and 7.1 Key Personnel (referenced)	Are there any required certifications or formal credential standards for the Key Personnel roles beyond the qualifications described for evaluation?	AWS Redshift
118	Attachment 2 – SOO	C.1.2 Task 2 Amazon Cloud Architecture & Solution Engineering Support Services	The SOO mentions AWS-native technologies but also calls for "preference towards Cloud-Native solutions such as Azure or AWS." Should the solution be strictly AWS-native, or should multi-cloud portability be designed into the architecture?	AWS
119	RFQ 693JJ425Q000030	7.5 Incident Response and Resolution	The RFQ (Section 7.5, Incident Response and Resolution) requires that all privacy incidents be reported within one hour of discovery. Could the Government please clarify whether the contractor is expected to provide full 24x7 security incident coverage? Additionally, can you describe how incidents are currently managed outside of normal business hours?	The contractor is not expected to provide full 24x7 security incident coverage.
120	Attachment 2 – SOO	C.1.4 Management Objectives	The SOO calls for "Agile Metrics" to measure team performance. What are the current metrics today that FMCSA tracks?	This information cannot be provided.
122	SOO (Attachment 2)	C.1.2 O&M Task 1	The SOO references maintaining a prioritized backlog in Jira. Will FMCSA provide access to its Jira/Confluence environments, or should the contractor propose and maintain a separate backlog instance?	Yes.
123	SOO (Attachment 2)	C.1.2 O&M Task 4	The SOO references support for "State-specific data marts" under SafeSpect, PRISM, and ITD. Can FMCSA clarify if all states are currently onboarded to these programs, and if not, will onboarding activities fall under this contract?	Yes
124	SOO (Attachment 2)	C.1.3 Security Objectives	The SOO requires compliance with NIST 800-53r4. Does FMCSA expect the contractor to propose a separate security toolset for vulnerability scanning and compliance reporting, or will existing FMCSA-provided tools be used?	No
125	Attachment 1 Price Quote Schedule Trudata - Copy.1757963009974	Detailed FFP Breakdown sheet	Are offerors allowed to modify the Detailed FFP Breakdown sheet to add columns for GSA labor category mapping, GSA rates and discount offered and insert appropriate formula?	Yes, this can information can be added.
126	693JJ425Q000030 RFQ TruData- Draft 9 15 25 - Copy.1757963010488	11.3.1 Quote Submission Requirements	Part 1: Technical Quote includes (i) Performance Work Statement (ii) Technical Approach (iii) Staffing and Management Plan (iv) Quality Assurance Surveillance Plan, and (v) Key Personnel Resumes. Instruction underneath states that 'All Sections are to be clearly separated from the other (i.e., Separate electronic files).' - Can you please confirm that all above five sections are to be submitted in separate files, including Staffing and Management Plan?	Only Part 1 (Technical) and Part 2 (Price) should be separated.

127	693JJ425Q000030 RFQ TruData- Draft 9 15 25 - Copy.17579630104 88	11.3.1 Quote Submission Requirements	It states that "Part 1 Technical Quote is limited to a total of Ten (10) pages." - can you please confirm that PWS is separate and there is no page limit for it?	See11.5 for items not included in the page limit, the PWS is included in the 10 page limit.
128	693JJ425Q000030 RFQ TruData- Draft 9 15 25 - Copy.17579630104 88	11.3.1 Quote Submission Requirements	It states that "Part 1 Technical Quote is limited to a total of Ten (10) pages." - can you please confirm that Staffing and Management Plan is included in this 10-page limitation?	See response above.
129	693JJ425Q000030 RFQ TruData- Draft 9 15 25 - Copy.17579630104 88	11.3.1 Quote Submission Requirements	Can the government please consider to increase the page limit for Technical Quote to 20 pages?	The page limit cannot be increased.
130	693JJ425Q000030 RFQ TruData- Draft 9 15 25 - Copy.17579630104 88	Part 1 - Technical Quote	"The Offerors shall provide a Performance Work Statement (PWS) in response to Attachment 2-Performance Work Statement (PWS),..." - Is Attachment 2 (SOO) meant here?	Correct. Should state Statement of Objectives (SOO). Revised in final version.
131	693JJ425Q000030 RFQ TruData- Draft 9 15 25 - Copy.17579630104 88	Part 2 Price Quote	"The Contractor price make up shall include a detailed breakdown of labor rates for all labor categories proposed and provide adequate detail in the Price Quote of how the total price was reached (i.e., per task, proposed labor category: proposed hourly price x proposed # hours = subtotal price per task. Total price = sum of subtotals per task) in Microsoft Excel." - Are offerors allowed to modify/add additional worksheet to Attachment 1 to include price breakdown per task?	Yes, this can information can be added.
132	11.1 GENERAL INSTRUCTIONS	11.3.1 Quote Submission Requirements	Can we add cover letter in addition to the title/cover page?	See section 11.3.1
133	11.1 GENERAL INSTRUCTIONS	11.1 GENERAL INSTRUCTIONS	a. "Offeror" as used within this solicitation, encompasses either a single entity or a consortium of entities, including subcontractors or teaming partners that submit a quote in response to this solicitation. - Can government please consider removing subcontractor/teaming partners from "Offeror" definition? Generally speaking, prime vendor is offeror.	No. This cannot be removed.
<b>Question #</b>	<b>Document Reference</b>	<b>Section Reference</b>	<b>Discussion/Question</b>	<b>FMCSA RESPONSE</b>
134	SOO Attachment	C.1.2 O&M	Can FMCSA confirm the volume and format of legacy data to be migrated into TruData (e.g., MCMIS, SAFER, SAFETYNET)?	No specificity can be provided
135	SOO Attachment	C.1.2 O&M	Are there any data quality issues FMCSA expects the contractor to address during migration?	No specificity can be provided
136	SOO Attachment	C.1.1 General Objectives	Will FMCSA provide existing AWS architecture diagrams and resource inventories before contract kick-off?	No
137	SOO Attachment	C.1.2 Cloud Architecture	Are there any restrictions on AWS services (Redshift, Glue, Kinesis, DynamoDB) that the contractor cannot use due to licensing, cost, or policy?	No
138	SOO Attachment	C.1.3 Security Objectives	Is TruData currently operating under a FedRAMP ATO, or will the contractor support initial accreditation or reauthorization?	No

139	SOO Attachment	C.1.5 Labor Objectives	Are the listed roles (PM, DB Developer, QA Analyst) the only mandatory key personnel, or can equivalent substitutions be proposed?	See section 7.1 of the SOO
140	SOO Attachment	C.1.5 Labor Objectives	What is the expected level of effort (FTE % dedication) for key roles, particularly the Project Manager?	100
141	PWS RFQ	Section C – Scope	Will FMCSA provide licenses, cloud accounts, and development/test environments, or should these be priced into the proposal?	These will be provided by the Government.
142	SOO	Task 4 Page 7	For the purposes of accurately understanding scope, can the government provide information as to what constitutes completeness for data migration ("required data elements"), and are there data quality/validation requirements beyond simple transfer?	The contractor should propose a solution based on the information provided in the SOO.
143	SOO	Section C.1.2, Page 5-6	Can the government provide specific performance requirements (response times, throughput, availability SLAs) for the TruData platform, including current and projected data volumes, user concurrency levels, and peak usage patterns?	No specificity can be provided
144	RFQ	Section 11.3.1, Page 18	Can technical diagrams be included as an appendix and not counted against the page count, while being referred to within the proposal response? The technical diagrams are often quite large and critical to providing a distinguished approach among the different offerors	Yes, technical diagrams can be included as an appendix and excluded from the page limitation.
145	SOO	Tech Stack Page 5	Should bidders look to leverage OST data platforms as well as part of the long term TruData solution?	No
146	SOO	Tech Stack Page 5	Will the FMCSA AWS account (GovCloud) be integrated into the DOT AWS account (commercial)?	This information is unknown at this time.
147	SOO	N/A	Given that this effort is Firm Fixed Price (FFP) the offerors would benefit with additional information regarding the data governance frameworks utilized in this effort. Any additional requirements for data lineage, data quality management, or metadata management tools would help the offerors provide the best solution to meet the scope of this solicitation.	No additional information can be provided.
148	SOO	N/A	Will FMCSA update the solicitation to indicate if using AI solutions for the data sources where FMCSA has insufficient documentation, technical and business knowledge staff available would be encouraged under this effort?	No

149	N/A	N/A	Based on the scope and type of support services expected in performance for the TruData Modernization IT Support requirement, we respectfully recommend that FMCSA consider utilizing DOT's Software Engineering Support (SWES) BPA.	FMCSA considered the use of SWES however, the GSA MAS 8(a) Competitive pool is a more appropriate acquisition strategy for this requirement.
150			Is there a requirement to, at a minimum, be an Advanced Tier Level AWS Partner with the AWS ATO, Solutions provider badge, or any competencies such as Government Services, Migration or DevOps competency?	The Contractor is encouraged to propose its own solution for this requirement.
151	Attachment 2 SOO Draft	Task 4	Platform support also talks about data sources not covered under data migration. Does that mean they will be looking to add new data sources as well during the contract?	This information is unknown at this time.
152	Attachment 2 SOO Draft	General Objectives	Is this is a brand new system being built? Or is this an existing modernization effort that we would be taking over and completing?	This is an existing modernization effort.
153	Attachment 2 SOO Draft	All	Can the government provide the specifications and data capacity of the current and future technology stack?	No specificity can be provided.
157	RFQ Draft	Section 7.1 Key Personnel	Key Personnel lists LCATS as Key Personnel. Staffing estimates require 2 Senior Database Developers. Is the requirement for vendor to provide resumes for both Senior Database Developers for a total of 4?	See 11.5 Volume II Factor 4 - Key Personnel Resumes. "The Quoter shall provide a resume of their proposed key personnel "
158	RFQ Draft	11.3.1 - Quote Submission Requirements & 12.1 Method of Award	Would the government consider a requirement and evaluation criteria for minimum 1-2 past performance/corporate experience to be included as either part of the technical volume or a separate volume? This will demonstrate recent familiarity with DOT modes, systems, policies as well as successful delivery of similar scope projects.	See Section 12.1, the Evaluation Criteria for this RFQ has been established.
160	Attachment 2	Background	Is the existing AWS workload hosted in its own AWS accounts?	Yes
161	Attachment 2	Background	Are there existing isolated development and test environments?	Yes
162	Attachment 2	Background	Are any of the data sources coming from other DOT Modes that will require interaction/coordination with Points of Contact outside FMCSA?	Yes
163	Attachment 2	C3.1 Security Objectives	How many existing POAMs apply to the system, and what is the required timeline for resolution?	1 POAM has a scheduled completion date of 12/4/2025. The other has a scheduled completion date of 1/31/2026.
164	Attachment 2	Page 4 - Scope	How many parties are represented by "growing set of datamarts currently approaching 100?	This information is not available.

165	SOO	Scope	Can the government provide the number of Automated Information Systems (AISs) and the available interfaces technologies to be integrated?	This information cannot be provided.
166	SOO	C.1.5 LABOR OBJECTIVES	Considering the intensive work needed, along with the limited knowledge of the current environment, can the government provide an estimate on the labor hours?	This is a firm fixed price contract. See Attachment 1 - Detailed Firm Fixed Price Breakdown. LCAT Estimated hours are listed. Note " *THE ALLOCATED HOURS AND LABOR CATEGORIES ARE FOR ESTIMATING PURPOSES ONLY. THE CONTRACTOR MAY ADJUST TO CONFORM WITH THE TECHNICAL APPROACH AND THE PWS SUBMITTED IN RESPONSE TO THIS RFQ."
167	SOO	Task 3: Support Services	Can the government provide a historical data regarding the number of incidents/tickets data along with the average resolution time for the same?	No.
168	Attachment 2	C.1.5 LABOR OBJECTIVES	The pricing sheet refers to these labor categories (Project Manager - Senior, Business Analyst - Intermediate, Database Developer - Intermediate, Database Developer - Senior, Quality Assurance Analyst), but the attachment states these labor categories (1. Project Manager, 2. Business Analyst, 3. Data Architect, 4. Database Developer, 5. Quality Assurance Analyst), should the offeror assume that the Database Developer - Senior refers to the Database Architect?	Yes this is equivalent.
169	RFQ	4.2	If deliverables are rejected and require resubmission, will the Government provide additional time beyond the 15-day review window for acceptance?	This will only be allowed on a case-by-case basis
170	RFQ	5.2	what percentage of work requires a presence on-site at DOT HQ?	This will be on an as needed basis. A percentage cannot be estimated at this time.
171	Attachment 2; RFQ	Constraints - Quality Assurance; 11.3.1	The SOO requires submission of a QASP within five (5) days of award while the RFQ evaluation also includes a QASP as part of the quote. Can the Government clarify whether the QASP submitted with the quote is considered draft and negotiable post-award?	The requirement to submit a QASP with the RFQ submission is a Draft. The final QASP will be submitted by the Awardee after award.
172	Attachment 2 – TruData Modernization IT Support SOO	C.1.2 O&M – Task 3: Support Services	How many Tier III production issues does FMCSA typically expect per month, and what are the severity/response time expectations?	This information cannot be provided at this time.
173	Attachment 2 – TruData Modernization IT Support SOO	C.1.2 O&M – Task 4: Platform Support	What is the expected volume of new ETL pipelines to be developed annually versus existing ETL jobs that require maintenance/optimization?	No specificity can be provided.
174	Attachment 2 – TruData Modernization IT Support SOO	C.1.2 O&M – Task 4: Platform Support	How many new data sources or data types are anticipated to be added into TruData each year?	No specificity can be provided.
175	Attachment 2 – TruData Modernization IT Support SOO	C.1.2 O&M – Task 4: Platform Support	Of the ~100 data marts referenced, how many require ongoing maintenance versus new build-out in the base year?	Requirements driven.
176	Attachment 2 – TruData Modernization IT Support SOO	C.1.2 O&M – Task 1: Configuration Mgmt.	What is the current size of the Jira backlog (epics/features/user stories) and what sprint cadence (e.g., 2-week) does FMCSA expect?	2 Weeks.

178	Attachment 2 – TruData Modernization IT Support SOO	C.1.2 Operations & Maintenance Tasks 1–4	For each O&M task (Configuration Mgmt., AWS Solutions Engineering, Support Services, Platform Support), can FMCSA provide estimated number of systems, applications, or data sources?	The specific number cannot be provided.
179	Attachment 2 – TruData Modernization IT Support SOO	C.1.2 O&M – Task 4: Platform Support	What percentage of test cases are currently automated, and is there an established automated test coverage target for user stories?	100%
180	Attachment 2 – TruData Modernization IT Support SOO	C.1.2 O&M – Task 4: Platform Support	Does the system support automated rollback and reprocessing for failed ETL loads or deployments?	Yes
181	Attachment 2 – TruData Modernization IT Support SOO	C.1.2 O&M – Task 4: Platform Support	Are there process automation or orchestration tools already built into the system (e.g., auto-scaling, pipeline orchestration, incident auto-ticketing)?	Yes
183	Attachment 2 – TruData Modernization IT Support SOO	Architecture Description (Figure 1, AWS stack)	Which data flows are batch and which are streaming? Where is Kinesis used versus scheduled Glue/Data Pipeline jobs?	This information is unknown.
185	No Section Referenced	No Section Referenced	Can FMCSA confirm whether this requirement will be evaluated under Best Value Tradeoff or Lowest Price Technically Acceptable (LPTA) methodology?	Best Value Tradeoff.
187	No Section Referenced	No Section Referenced	Can FMCSA clarify the expected clearance level for personnel (e.g., Public Trust only, or higher such as Secret clearance)?	Low Risk - Public Trust
188	No Section Referenced	No Section Referenced	Will FMCSA require contractor support during weekends and holidays on a recurring basis, or only as directed for emergency/mission-essential operations?	No, only as directed.
190	No Section Referenced	No Section Referenced	Does FMCSA anticipate transitioning work from an incumbent contractor (knowledge transfer), and if so, what is the expected transition-in period before full performance begins?	4 Weeks
191	N/A	Section 1.3 Schedule of Services and Price	What is the anticipated contract value or budget range for this requirement to help us appropriately scale our technical approach and staffing proposal?	This information will not be provided.
196	TruData SOO Draft	Section C.1.4 Management Objectives	Will specific performance metrics, Key Performance Indicators (KPIs), or Service Level Agreements (SLAs) be established by FMCSA for contract reporting? Or is the contractor expected to propose these during project kickoff?	Contractor to propose.
